Quality-oriented Full-Stack Software Developer with proven leadership, problem-solving, and teamwork skills. Aiming to leverage my abilities to successfully fill a Software Developer role at your company. Frequently praised as hard-working by my peers, I can be relied upon to help your company achieve its goals.

TECHNICAL SKILLS

[Languages]: JavaScript (ES6), Node.JS, CSS, HTML, Java, Python

[Libraries/Frameworks]: React, Mongoose, Socket.IO, Bootstrap, Spring MVC, Spring Data, Java Persistence API (JPA), Spring Rest, Spring Boot, Flask, Express

[Databases] MySQL, MongoDB

[Tools]: Eclipse IDE, Visual Studio Code, Sprint Tool Suite (STS), Github, Postman

WORK EXPERIENCE

Ideaweavers| Full-Stack Developer | June 2022 – Present

Worked closely with clients and a team of Business Analysts, QA Analysts, CTO, and developers to design, create, test, and deliver high-quality software with the customer always at the forefront of our minds. Implemented multiple improvements to the company's primary product, Commonthread.

Implemented an advanced options feature to Commonthread's data import tool, reducing import times by an average of 40%. This saves many hours of developer time.

Created and updated customized SQL queries for multiple customers. Enabled customers to view connections between data sources from varying business units to enhance their analysis capabilities.

Regularly attended meetings with clients to understand their needs and goals.

Routinely met with CTO to discuss ideas and solutions.

Worked under the agile methodology.

PERSONAL PROJECTS

Otter | Full-Stack Developer | [Github](#)

Created a social media application that allows users to share, manage, and interact with posts and connect with other users.

The purpose of this project was to combine multiple technologies learned at Coding Dojo and additional independent studies.

Utilized Spring Boot, Spring MVC, Spring Data (JPA), React, HTML, CSS, JavaScript, Bootstrap, Axios, SQL.

ChatRoom | Full-Stack Developer | [Github](#)

Developed a website that allows users to create and join "rooms," have live chats with others, and modify their profiles.

The purpose of this project was to practice creating mobile-responsive websites and learn how to integrate real-time, low-latency communication between users by employing Socket.IO.

Utilized MongoDB, React, Express, Node.JS, Socket.IO, AWS EC2, Nginx, JavaScript, Axios, Bootstrap, HTML/CSS.

EDUCATION

Coding Dojo | Full-Stack Developer Certificate | Remote   2022
Immersive Full-Stack Training Program in Python, Java, and MERN (MongoDB, Express, React, Node.js)

Achieved a "triple black belt," which is considered the camp's highest achievement and displays mastery in all the subjects taught.

Worked 100% remotely with developer students from across the country.

New River Community College   2020-2021
Cybersecurity I

Shoreline Community College   2019-2020
Computer Science II: Data Structures With Java
